EDUCATION

Temple University, Philadelphia — *Computer Science B.S.*

2020 - 2024

G.P.A. 3.56. Rising senior with a minor in Digital Media Technologies. Dean's list for the College of Science & Technology.

EXPERIENCE

Newtown School of Rock — *House Band Performer*

2015 - 2020

Structured experience in a live setting, handling audio I/O as well as communicating with other performers. Played at venues such as Union Transfer and the Wildwood Boardwalk. Members are selected based on skill, performance ability and leadership skills.

Core Creek Park — *Boat Rentals*

2019 - 2020

Constant communication with customers and a cashier position that teaches how to handle money quickly and efficiently.

Freelance Photography, Videography, and Graphic Design

Self taught as well as education in the arts of film and photo. Showcased three times in the Highschool Senior art show and has graphic design experience from self made album artwork.

PROJECTS

Interactive Linux Shell — *In Operating Systems, we learned an intense deal of low level machine programming. One of our final tasks was to create an entire shell from C that mimics the actions of the bash shell, implementing I/O, pipes, and executing programs.*

Web Application with Database — *building a website from scratch, using all the HTML, CSS, Java, Javascript, and SQL that goes along with it to implement various web applications.*

COURSES

Computer Systems & Low Level Programming

Audio Mixing

Law and Ethics of Digital Media

Operating Systems

Web Application Programming
